COMPANY MISSION STATEMENT

We want our clients and candidates to value our partnership and capabilities by recognizing us as the staffing firm of choice for temporary staffing, mid-level direct hire and executive placement.

ABOUT US

Celebrating 45 years in business, we are your recruiting resource.

John Almond founded Almond & Associates in 1972 as an executive placement firm. His ability to understand the intangibles of organizations and identify their needs soon led to Almond & Associates' success and reputation as a leader in the field of executive search and professional office placement.

Pete Almond joined the firm in 1999 and is responsible for the South Sound business. Under Pete's leadership, Almond & Associates has continued the tradition of excellence and success in executive and mid-level direct hire placement that Almond & Associates has always been known for.

Pete is passionate about helping clients find the right talent whatever their recruiting needs. To this end, in addition to our placement services, Pete launched a new division of Almond & Associates dedicated to the temporary staffing needs of clients in the South Sound. Almond Temps is focused on helping South Sound employers find qualified, timely, and reliable temporary staff – the Almond way.

IBM KENEXA ASSESSMENTS

Almond & Associates utilizes assessment software to test candidate skills. All candidates are tested on Microsoft Office Word and Excel, Alpha Numeric and 10 Key Data Entry, and Typing speed. Additional testing may be requested when specific to a position being filled.

(From IBM Kenexa Assess)

- ♦ Validated assessments for clerical, software, call center, industrial, healthcare, financial, and technical job classifications to help your company identify and select the most talented candidates.
- ♦ Each report includes an overall percentage score, item-level detail, and level/topic statistics, including the following: how the test taker responded, time spent per item, proficiency level (basic, intermediate, and advanced), and grouping by topic to reveal the level of knowledge in a particular area.
- ♦ Microsoft Office assessments are simulations that allow candidates to perform the task using multiple ways to answer a question, such as short-cut keys, menus, and right-clicking.

TESTING SERVICES

When conducting your own search, it is valuable to assess candidate skills before a final hiring decision. Almond & Associates can provide testing to your candidates for a small fee. Please contact our office at 253.952.5555 for more information.
